

1st

International Conference on Artificial Intelligence and Smart Vehicle

Proceedings by Springer Communications in Computer and
Information Science (CCIS)

24 & 25 MAY 2023

ICAISV-2023

Conference covers two main themes for submitting papers:
Artificial Intelligence and Smart Vehicle. You may attend in-
person or virtually.

TOPICS

- Artificial intelligence methods
- Machine learning applications
- Image processing
- Intelligent Transportation Systems (ITS)
- Smart roads
- Driver assistant systems
- Electric & hybrid electric vehicles
- Connected vehicles
- Autonomous vehicles
- Safety systems for vehicles, cyclists, motorcyclists, and pedestrians
- Safety and comfort in autonomous vehicles
- Smart applications for driver identification, driver evaluation and accidents analysis
- Public transportation, freight transportation, Hazmat transportation
- Legal and insurance issues of smart cars
- Vehicle manufacturing, designing, and marketing

Amirkabir University of Technology
(Tehran Polytechnic), Iran

IMPORTANT DATES

- **The Last Extended Time for Full Paper Submission:**

~~6 March 2023~~
9 APRIL 2023

- **Notification of Acceptance or Rejection:**

5 May 2023

- **Conference & Workshops:**

24 & 25 May 2023
